30-Day Coder Thinking: Dry Run Grids + Worksheets

Loop Dry Run Grid

Step	i	Other Vars	Condition	T/F	Action	Output

If-Else Dry Run Grid

Step	Variables	Condition	T/F	Block	Values After

Nested Loop Grid

Step	i	j	i-cond	j-cond	Action	Notes

Practice Worksheets

1. Use the Loop Grid to dry run factorial for n=5.
2. Use the If-Else Grid to dry run palindrome check for 121 and 123.
3. Use the Nested Loop Grid to dry run printing a triangle pattern of 3 rows.
4. Dry run checking if 17 is prime using step-by-step logic.
5. Use an Array Grid (draw yourself) to dry run finding max in [4, 7, 1, 3, 9].
